CHRISTIAN CONRAD.

Died March 5, 1896, aged 116.

Mr. Conrad was born in Cumberland county, Pennsylvania, September 22, 1780. He was living on the old homestead, a man over 30, when the war of 1812 broke out. A cousin brought the news and Mr. Conrad abandoned the farm for the field of arms. His company was ordered to the Niagara frontier, and as a private in the ranks he took part in Colonel Miller's historic and successful charge on Queenstown Heights. He also participated in the battle of Fort Erie, and witnessed Commodore Perry's famous victory on Lake Erie.

Upon the close of the war Mr. Conrad returned to the farm, where he remained until the opening of the Erie canal, upon which he operated a line of boats for seven years. He also navigated the Susquehanna for some years, and in 1845 settled in McHenry county, Illinois. In 1860 he removed to the present farm in Delaware county. His habitation was a log house with two rooms, and his companion was his wife, who at the age of over 80, still performs the duties of housekeeper and is as cheerful as a matron of 40. They were married sixty-two years ago, and their eleven children, ranging in age from 50 to 58 years, are all living, besides forty-two grandchildren and thirty-four great-grandchildren.

THE VARIOUS JURISDICTIONS OVER IOWA.

FROM THE ANNALS OF IOWA, JULY, 1893.

The territory now known as the State of Iowa passed through a long succession of jurisdictions, or ownerships, prior to the 28th day of December, 1846, when it became one of the United States, the first to claim ownership being Pope Alexander VI.

GRANT TO THE KING AND QUEEN OF SPAIN.

1493. Pope Alexander VI granted to Ferdinand and Isabella, king and queen of Aragon and Castile, Spain, all the continents, inhabited by infidels, which they had discovered, extending the assignment to their heirs, and successors, the kings of Castile and Leon. The boundary between the grants to Spain and Portugal was fixed on a line drawn from pole to pole, 100 leagues west of the Azores. All countries east of that meridian not actually possessed by any Christian prince were to belong to Portugal; all to the west to Spain. Owing to the dissatisfaction of Portugal as to the boundary fixed in the grant to that country and Spain, a commission was appointed, which, on July 2, 1493, agreed on a line 270 leagues farther west. In the first assignment Portugal only secured the title to what was found to be a vast expanse of ocean, and the change of meridian was made in the belief that she would thereby acquire some portion of terra firma. But in this she was also doomed to disappointment.

THE CABOT PATENTS.

1496. Henry VII, king of England, granted to John Cabot and his sons, Lewis, Sebastian and Sanctus, a patent of discovery, possession and trade. This was to include all the lands they might discover, of which they were to take possession in the name of the English crown. England laid claim in 1498 to all of North America, through the discoveries of John Cabot.

THE PLYMOUTH COMPANY'S CHARTER.

1620. James I, king of Great Britain, France and Ireland, granted to the council at Plymouth, England, all that part of America lying between the fortieth and forty-eighth degrees of north latitude, and extending from "sea to sea." This grant included within its limits the whole of Iowa, and challenged any rights Spain may have received from the pope.

THE MASSACHUSETTS COMPANY'S CHARTER.

1628. The "council established at Plymouth," England, granted to Sir Henry Roswell and others, all that part of New England in America

extending along the Atlantic coast from three miles north of the Merrimac to three miles south of the Charles river, and westward between the latitude of 42 degrees, 2 minutes and a point three miles north of the most southerly bend of the Merrimac, to the South sea. This grant gave to the Massachusetts company that part of Iowa lying between parallels passing through the north edge of Clinton county and the south part of Clayton county. Charles I, king of England, granted, March 4, 1629, to Sir Henry Roswell and twenty others, a charter similar to that of 1628, with the exception that no part of the lands therein granted were, on the 3d day of November, 1620, inhabited by any other Christian prince, or within the limits of the Southern Colony of Virginia. The associates were made "one body corporate and politic in fact and name, by the name of the Governor and Company of Massachusetts Bay in New England."

THE WARWICK GRANT.

1630. The council at Plymouth granted to the Earl of Warwick a tract of country south of Massachusetts. The earl on the 19th day of March, 1631, transferred the grant to Lords Say and Sele, Brooke and others. The country was defined in the transfer as lying south of Massachusetts and west of Narragansett river, extending westward 120 miles along the coast, and thence west to the Pacific. The Warwick grant embraced that part of Iowa lying between latitude 41 degrees and 42 degrees, 2 minutes, parallels passing through near the center of Henry county and the north edge of Clinton county.

THE PLYMOUTH COMPANY'S CHARTER.

1635. The charter of the Plymouth company was surrendered to the crown of England to obtain a confirmation of the respective rights of the original members of the company. The grant was divided into twelve parts and distributed by lot. No territory was partitioned lying west of forty miles west of the Hudson. The province of Virginia, on the surrender of the charter of the Plymouth company, extended its jurisdiction to the forty-first parallel, the south line of the Warwick grant. The territory of Iowa was then claimed by Virginia, the assignees of the earl of Warwick, and Massachusetts, to the north line of Massachusetts, and from thence north by the crown of England.

THE MASSACHUSETTS BAY COMPANY.

1652. The general court of Massachusetts extended the northern boundary of the province to three miles north of the head of the Merrimac —latitude 43 degrees, 43 minutes, 12 seconds—and west to the Pacific. This extension of boundary placed all of northern Iowa under the claim of Massachusetts.

THE CONNECTICUT CHARTER.

1662. Charles II, king of England, Scotland and France, granted a charter to John Winthrop and other associates to the country included in the Warwick grant of 1639, the colonists having purchased the rights of the patentees in 1644.

THE MASSACHUSETTS BAY COMPANY.

1677. The crown of England ordered that the northern bounds of Massachusetts be restored to within three miles of the Merrimac, thereby leaving the jurisdiction of the north part of Iowa subject to the direct control of the king, as it was previous to 1652. The colony, however, still claimed to the northern limits.

LA SALLE'S PATENT.

1678. Louis XIV, king of France and Navarre, granted a patent to Robert de La Salle, permitting him to endeavor to discover the western part of New France. April 9, 1682, La Salle, having descended the Mississippi and explored the shores of the gulf of Mexico to the westward, took formal possession of the country in the name of the king of France, "from the mouth of the Ohio, also along the Mississippi and the rivers discharging themselves thereinto from its source beyond the country of the Nadonessioux as far as its mouth at the gulf of Mexico."

THE MASSACHUSETTS COMPANY'S CHARTER.

1684. The court of chancery at Westminster, England, decreed that the patent of Massachusetts should be brought into court and canceled.

THE MASSACHUSETTS BAY COMPANY'S CHARTER.

1691. William and Mary, king and queen of England, granted a charter uniting the colonies of Massachusetts, New Plymouth and others under the name of "Province of Massachusetts Bay in New England." This charter included the same territory in Iowa as did the charters of 1628 and 1629.

CROZAT'S PATENT.

1712. Louis XIV, King of France and Navarre, granted a patent to Anthony Crozat, for fifteen years, with the right to carry on a trade in the country between Carolina and New Mexico. The country was to retain the name of Louisiana and be annexed as a dependent of New France. The laws of France were extended to the province.

THE WESTERN COMPANY'S PATENT.

1717. Crozat surrendered his patent to the crown of France, and King Louis XV granted to the Western Company for twenty-five years the exclusive commerce of Louisiana, and the right of beaver trade with New France. The charter gave rights of civil and military jurisdiction. It was surrendered to the crown in 1730.

THE ACT OF FONTAINBLEAU.

1762. A preliminary treaty was signed between England, France and Spain, by which it was agreed that the boundary between the provinces of England and France should be irrevocably fixed by a line drawn in the middle of the Mississippi river, from its source to the Iberville, etc. Louis XV, king of France, ceded Louisiana to Spain. The province was formally taken possession of August 18, 1769. By this treaty the territory comprised in the bounds of the state of Iowa was definitely placed in the province of Louisiana, and the rights of the English claimants terminated

THE TREATY OF PARIS.

1763. A definite treaty was signed between England, France and Spain, confirming the boundary between the possessions of England and France as agreed upon by the Act of Fontainbleau of 1762.

THE TREATY OF ILDEFONSO.

1800. A secret agreement was entered into by which the king of Spain was to recede the province of Louisiana to France, upon a fulfillment of certain considerations to be performed by the French republic.

The agreement of the Treaty of Madrid, made the following year, provided that the retrocession of Louisiana as provided in the Treaty of Ildefonso should be carried out.

THE TREATY OF PARIS.

1803. France ceded the province of Louisiana to the United States. The treaty was ratified and proclaimed October 1, 1803. The province comprised all west of the Mississippi river north and east of the Spanish possessions, with the Island of Orleans.

DISTRICT OF LOUISIANA.

1804. That part of the Province of Louisiana south of the thirty-third parallel was detached to form the Territory of Orleans, by act of congress, and the residue named "District of Louisiana," and placed under the control of the governor and judges of Indiana Territory.

TERRITORY OF LOUISIANA.

1805. A territorial government was established by congress in the District of Louisiana and the name changed to "Territory of Louisiana."

TERRITORY OF MISSOURI.

1812. The government of the Territory of Louisiana was reorganized and the name changed to "Territory of Missouri."

TERRITORY OF MISSOURI.

1821. Missouri was admitted as a state and the remaining portion of the territory, that part north and west of Missouri and Arkansas, left without any form of government.

MICHIGAN TERRITORY.

1834. The boundaries of Michigan Territory were extended by act of congress westward to the Missouri river. This act again placed Iowa among the governments east of the Mississippi river. Michigan Territory extended from Lake Huron to the Missouri river, and from the states of Ohio, Indiana, Illinois and Missouri north to the British possession.

WISCONSIN TERRITORY.

1836. Michigan Territory was divided by act of congress of April 20, 1836, and the western part established as "Wisconsin Territory."

IOWA TERRITORY.

1838. Wisconsin Territory was divided by act of congress of June 12, 1838, and the western part given a territorial government and named "Iowa Territory." This territory embraced the territory of the present state of Iowa, North and South Dakota east of the Missouri and White Earth rivers, and Minnesota west of the Mississippi river and a line drawn from its source to the British possessions.

STATE OF IOWA.

1846. Application was made to congress February 12, 1844, for admission of Iowa as a state. On the first day of November of that year a constitution was adopted by a territorial convention, with the following boundaries:

"Beginning in the middle of the main channel of the Mississippi river opposite the mouth of the Des Moines river; thence up the said river Des Moines, in the middle of the main channel thereof, to a point where it is intersected by the old Indian boundary line, or line run by John C. Sullivan in the year 1816; thence westwardly along said line to the 'old northwest corner of Missouri;' thence due west to the middle of the main channel of the Missouri river; thence up in the middle of the main channel of the river last mentioned to the mouth of the Sioux or Calumet river; thence in a direct line to the middle of the main channel of the St. Peters river, where the Watonwan river (according to Nicollet's map) enters the same; thence down the middle of the main channel of said river to the middle of the main channel of the Mississippi river; thence down the middle of the main channel of said river to the place of beginning."

An act of admission was passed by congress March 3, 1845, but at the election held on the fourth of August following the people rejected it.

The boundaries provided in the act of congress were as follows: "Beginning at the mouth of the Des Moines river at the middle of the Mississippi, thence by the middle of the channel of that river to a parallel of latitude passing through the mouth of the Mankato, or Blue Earth river, thence west along said parallel of latitude to a point where it is intersected by a meridian line, seventeen degrees and thirty minutes west of the meridian of Washington city, thence due south to the northern boundary line of the state of Missouri, thence eastwardly following that boundary to the point at which the same intersects the Des Moines river, thence by the middle of the channel of that river to the place of beginning."

On the 18th of May, 1846, another constitution was adopted by a second convention called for that purpose. This constitution proved acceptable to the people and was adopted at an election held August 3d, of the same year. On the following day, August 4, 1846, congress passed an act repealing the law of March 3, 1845, and accepting the boundaries of the state as defined in this last constitution and as they exist to-day. On the 28th day of December, 1846, congress passed the act admitting Iowa as a state in the Union. The boundaries were set forth in the act as follows: "Beginning in the middle of the main channel of the Mississippi river, at a point due east of the middle of the mouth of the main channel of the Des Moines river; thence up the middle of the main channel of the said Des Moines river to a point on said river where the northern boundary of the state of

Missouri—as established by the constitution of that state, adopted June 12, 1820—crosses the said middle of the main channel of the said Des Moines river; thence westerly along the said northern boundary line of the state of Missouri, as established at the time aforesaid, until an extension of said line intersects the middle of the main channel of the Missouri river; thence up the middle of the main channel of the said Missouri river to a point opposite the middle of the main channel of the Big Sioux river, according to Nicollett's map; thence up the middle of the main channel of the Big Sioux river, according to the said map, until it is intersected by the parallel of forty-three degrees and thirty minutes, north latitude; thence east along said parallel of forty-three degrees and thirty minutes, until said parallel intersects the middle of the main channel of the Mississippi river; thence down the middle of the main channel of the Mississippi river to the place of beginning "
